TopDiag P100 Pro

TopDiag P100 Pro Powerful Probe

P100 Pro Automotive Circuit Tester is a new generation of intelligent automotive circuit tester, which can be upgraded with free software for life on the market. It is a tool to quickly detect 9V-30V automotive circuit electronic systems. High test efficiency, fast speed, convenience, speed, intelligence and many other features!

Function :

- 1、 Intelligent identification of voltage/resistance**
- 2、 Multimeter mode (measure voltage, resistance, diode, continuity)**
- 3、 Oscilloscope function**
- 4、 Activation of vehicle components**
- 5、 0-5V adjustable power supply**
- 6、 frequency**
- 7、 Network online free upgrade**
- 8、 Built in multiple languages**

Languages :

English, Spanish, German, French ,Portuguese, Italian, Polish, Vietnamese ,Russian, Thai, Indonesian, Malaysian, Filipino, Arabic

Specifications and Parameters :

- 1、 Display: 2.4 inches (320*240 DPI) TFT true color display**
- 2、 Working temperature: 0-60° C (32-140 F°)**
- 3、 Storage temperature: 40-70° C (-40-185 F°)**
- 4、 External power supply: 12V or 24V powered by battery**
- 5、 Minimum working voltage: 9V**
- 6、 Maximum working voltage: 30V**
- 7、 Maximum measuring voltage: 100V**
- 8、 Minimum measuring voltage: 0.1V**
- 9、 Resistance measurement range:1 ohm~200K ohm**
- 10、 Active Current measuring range: 0~18A**
- 11、 Maximum continuous current: 18A**
- 12、 Color: black red orange yellow green blue**
- 13、 Weight: 1.5kg**
- 14、 Size: 17.6 * 24.6 * 7.6 cm**
